This is an e-learning fully online class with no on-campus meetings.

Online Orientation

All students must complete the online orientation which is available after you log into the course for the first four days of the course. The online orientation will be available for the first four days of the semester. Textbooks should be purchased at the BC bookstore (there is a special bundled package including access codes). Orientation must be completed by midnight on the fourth day of class.

Methods of Instruction

This is a 3-credit hour course. Normally, a three-credit hour course would meet once or twice per week (during a 16 week term) for a total of 48 hours per term. In this class, we will meet online. See the course schedule for a detailed description of learning activities online assignments. Students are responsible for regularly reviewing the course schedule and completing all required in and out of class assignments.

Learning Outcomes

Upon successful completion of this course, students should be able to:
1. Describe the function of managerial accounting and responsibility accounting.
2. Demonstrate and illustrate the concepts and procedures used in accounting for manufacturing operations employing a job order cost accounting system.
3. Demonstrate and illustrate the accounting concepts and procedures used by manufacturing operations employing a process cost system.
4. Describe cost behavior and cost estimation methods essential for planning and controlling operations.
5. Describe and apply cost-volume-profit analysis.
6. Develop and present special analyses and reports used by management.
7. Explain the objectives of the budget process.
8 Explain the use of standard costs in planning and controlling operations.
9 Describe the function of managerial accounting and responsibility accounting.
10 Describe reporting for investment centers and the pricing of products or services transferred between decentralized segments of a company.
11 Identify relevant information and apply differential analysis techniques.
12 Describe and use quantitative techniques used for decision-making.

Course Requirements

Please make sure that you meet the following requirements before you sign-up for this course:

- All exams will be available online. Actual dates and times will be provided in your syllabus.
- Homework assignments will be turned in online. There will be assignments that must be prepared using Microsoft Word and Excel. You should have a working knowledge of Microsoft Word and Excel.
- All work must be completed by the posted due dates. Late submissions will not be accepted.
- Is Online for You? Please click here to take an online readiness evaluation.
- Please click here to confirm you have the required hardware and software. High speed internet access is preferred but not required. There will be some audio files that you will want to listen to that will require downloading.
- Important! You must enable the pop-up feature for your browser. If you are using Netscape or Internet Explorer, you will not be able to take the quizzes unless this feature is enabled.

Course Materials

The required text (which is sold in a custom bundle made just for BC only at BC Bookstores) is Accounting Principles, eighth edition, Weygandt, Kieso, and Kimmel. Included with the text is the code to access WileyPlus, the homework manager utilized each semester. The custom bundle comes either in a hard covered book or three-hole punched with a binder. Please purchase your specially bundled textbook from the BC bookstore!
How to Register for this Course

Please register for course using myBC website. Students must pay for the course before access is granted.

How to Access the Course once you are Enrolled

You will be able to login on the first day of class. There may be a delay of up to 24 hours from when a student registers and pays before Blackboard login is activated.

- Obtain BC email user ID and PIN code before attempting to login to Blackboard.
- At the BC email address site, click on "ID Lookup", then enter your Student# (or INTL Student ID#) and PIN code (2 digit birth month and 2 digit year). Write down your email ID (not the @mail.broward.edu part), which is your Blackboard User Name.
- Your Blackboard User Name is the same as your BC email ID.
- Your Blackboard password is the same as your BC email PIN code.
